

EAR::Schedule::ITask

```
classDiagram
    class Task["EAR::Schedule::Task"]
    class ITask["EAR::Schedule::ITask"]
    Task --|> ITask
```

The diagram illustrates a class hierarchy. At the bottom is a white box labeled 'EAR::Schedule::Task'. A blue arrow points upwards from this box to a gray box at the top labeled 'EAR::Schedule::ITask'. This indicates that 'Task' inherits from 'ITask'.

EAR::Schedule::Task
